

REPORT MY GARDEN 01/2023 - 12/2023

CRI-MAN S.P.A.

“Warrant Garden

Il luogo ideale dove cogliere le migliori opportunità della
transizione ecologica”

Introduction

My Garden is a service for analysis and positioning based on an innovative ESG - GRI Referenced scoring model developed by Warrant Hub in collaboration with Studio Fieschi & Soci. Data collection took place on January 22, 2024, through the guided completion of an assessment questionnaire by an ESG Specialist from Warrant Hub. The temporal reference scope was the fiscal year from January to December 2023. The information gathered was used to capture the company's performance in environmental, social, and governance sustainability, with the aim of highlighting strengths, weaknesses, and potential areas for improvement.

The interview was conducted using a questionnaire on a digital platform jointly developed by Warrant Hub and Studio Fieschi & Soci (a company partly owned by Warrant Hub).

The questionnaire is divided into three main areas: Environment, Social, and Governance, to evaluate the company's performance across all sustainability domains.

The topics are aligned with the disclosures of the GRI Standards, the leading international methodological reference for sustainability reporting.

Below is the synthetic ESG scoring of CRI-MAN S.P.A.
